### **DETAILED ACTION**

Claims 12-33 and 37-42 are pending in this application.

#### ***Request for Continued Examination (RCE)***

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on December 3, 2004 has been entered.

#### ***Action Summary***

2. Examiner acknowledges the cancellation of claims 1-11 and 34-36. Therefore, any and all rejections or objections directed towards them are hereby withdrawn.
3. The rejection of claims 12-33 under 35 U.S.C. 103(a) over Satoh is being hereby withdrawn.

#### ***Restriction Requirement***

4. Claims 12-33 are directed to an allowable product. Pursuant to the procedures set forth in the Official Gazette notice dated March 26, 1996 (1184 O.G. 86), claims 37-42, directed to the process of making or using the patentable product, previously withdrawn from consideration as a result of a restriction requirement, are now subject to

Art Unit: 1616

being rejoined. Claims 37-42 are hereby rejoined and fully examined for patentability under 37 CFR 1.104.

Since all claims previously withdrawn from consideration under 37 CFR 1.142 have been rejoined, the restriction requirement made in the Office action mailed on March 12, 2002 is hereby withdrawn.

***Statement of Reasons for Allowance***

5. The following is an examiner's statement of reasons for allowance:

The claims are allowable over the cited prior art because the prior art does not teach, disclose nor make obvious a drug dosage form comprising a substantially non-volatile pharmaceutically acceptable oil and a compound susceptible to moisture-induced degradation, which is prepared by dispersing the compound in the substantially non-volatile pharmaceutically acceptable oil and compacting the dosage form with pressures of up to 5,000 psi/g. The closest prior art of Satoh discloses a composition comprises a hydrophobic compound levothyroxine together with albumin. The cited prior art does not teach dissolving the compound in the oil and compressing the dosage with pressures up to 5,000 psi/g.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

***Conclusion***

6. Claims 12-33 and 37-42 are allowed.
